PROFIRE ENERGY, INC. AND SUBSIDIARY
Notes to the Condensed Consolidated Financial Statements
September 30, 2013 and March 31, 2013

NOTE 1 – CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2013 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company's March 31, 2013 audited financial statements. The results of operations for the periods ended September 30, 2013 and 2012 are not necessarily indicative of the operating results for the full years.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Reclassification

Certain balances in previously issued financial statements have been reclassified to be consistent with the current period presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and all debt securities with an original maturity of 90 days or less. As of September 30, 2013 and March 31, 2013, bank balances included \$602,255 and \$808,772, respectively, held by the Company's banks guaranteed by the Province of Alberta, Canada and the FDIC.

Accounts Receivable

Receivables from the sale of goods and services are stated at net realizable value. This value includes an appropriate allowance for estimated uncollectible accounts. The allowance is calculated based on past collectability and customer relationships. The Company recorded an allowance for doubtful accounts of \$126,554 and \$133,974 as of September 30, 2013 and March 31, 2013, respectively.

Notes to the Condensed Consolidated Financial Statements

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory

In accordance with ASC 330, the Company's inventory is valued at the lower of cost (the purchase price, including additional fees) or market based on using the entire value of inventory. Inventories are determined based on the average cost basis. As of September 30, 2013 and March 31, 2013 inventory consisted of the following:

	September 30, 2013	March 31, 2013
Raw materials	\$ -	\$ -
Finished goods	6,256,988	3,553,140
Work in process	-	-
Subtotal	6,256,988	3,553,140
Reserve for obsolescence	(87,908)	(89,526)
Total	<u>\$ 6,169,080</u>	<u>\$ 3,463,614</u>

Revenue Recognition

The Company records sales when a firm sales agreement is in place, delivery has occurred or services have been rendered, and collectability of the fixed or determinable sales price is reasonably assured. If customer acceptance of products is not assured, the Company records sales only upon formal customer acceptance.

Income Taxes

The Company is subject to US and Canadian income taxes, respectively, on its US and Canadian income with a credit provided for foreign taxes paid. The combined effective rates of income tax expense (benefit) in the US and Canada are, respectively, 35% and 28% for the six months ended September 30, 2013 and 2012, respectively.

Basic and Diluted Earnings Per Share

The computation of basic earnings per share of common stock is based on the weighted average number of shares outstanding during the periods presented. The computation of fully diluted earnings per share includes common stock equivalents outstanding at the balance sheet date. The Company had 630,500 and 530,000 stock options included in the fully diluted earnings per share as of September 30, 2013 and 2012, respectively. The Company uses the treasury stock method to calculate the dilutive effects of stock options and warrants.

	For the Six Months Ended September 30,	
	2013	2012
Net income applicable to common shareholders	\$ 3,663,533	\$ 1,210,865
Weighted average shares outstanding	45,289,301	45,054,918
Weighted average fully diluted shares outstanding	45,905,364	45,436,770

Notes to the Condensed Consolidated Financial Statements
September 30, 2013 and March 31, 2013

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign Currency and Comprehensive Income

The Company's functional currencies are the United States dollar (USD) and the Canadian dollar (CAD), the reporting currency is USD. All transactions initiated in other currencies are translated into the reporting currency in accordance with ASC830-20, "Foreign Currency Matters – Foreign Currency Transactions". The period-end exchange rates of 0.97232 and 0.982898 were used to convert the Company's September 30, 2013 and March 31, 2012 balance sheets, respectively, and the statements of operations used weighted average rates of 0.970557 and 1.02760 for the six months ended September 30, 2013 and 2012, respectively. All amounts in the financial statements and footnotes are presumed to be stated in USD, unless otherwise identified. Foreign currency translation gains or losses as a result of fluctuations in the exchange rates are reflected in the Statement of Operations and Other Comprehensive Income.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Company's financial position, or statements.

Stock-Based Compensation

The Company follows the provisions of ASC 718, "Share-Based Payment," which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. The Company uses the Black-Scholes pricing model for determining the fair value of stock based compensation.

NOTE 3 – FAIR VALUE MEASUREMENT

The Company measures its cash equivalents and marketable securities at fair value. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. A three-tier fair value hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include inputs that are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant inputs are observable in the market or can be derived from observable market data. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, foreign exchange rates, and credit ratings.

Level 3 - Unobservable inputs that are supported by little or no market activities.

PROFIRE ENERGY, INC. AND SUBSIDIARY
Notes to the Condensed Consolidated Financial Statements
September 30, 2013 and March 31, 2013

NOTE 3 – FAIR VALUE MEASUREMENT (Continued)

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company classifies its cash equivalents and marketable securities within Level 1. This is because it values its cash equivalents and marketable securities using quoted market prices.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Description	Fair Value Measurement at Reporting Date Using			
	As of September 30, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Cash Equivalents	\$ 602,255	\$ 602,255	\$ -	\$ -

NOTE 5 – SUBSEQUENT EVENTS

On November 12, 2013, the Company entered into a Securities Purchase Agreement (the “Purchase Agreement”) with certain institutional investors and other accredited investors. Pursuant to the terms of the Purchase Agreement, the Company entered into an agreement to sell to the purchasers an aggregate of approximately \$4,700,000 worth of common stock of the Company at a price per share of \$2.18. The closing of the purchase is expected to occur on or before November 15, 2013, and is subject to customary closing conditions. As part of the Purchase Agreement, the Company has agreed to use best efforts to list its common stock on an exchange other than the OTC Bulletin Board (e.g. NASDAQ or NYSE MKT), and to maintain said listing thereafter.

Pursuant to the Purchase Agreement, the Company agreed to file a registration statement with the Securities and Exchange Commission covering the resale of the shares. The proceeds are expected to be used for general working capital purposes and to otherwise finance the growth of the Company.

Subsequent to quarter-end, an employee exercised previously issued options for 100,000 shares.
