Profire Energy Reports Financial Results for Fiscal Year 2016

Company Meets Guidance, Recognizes Annual Profit and Positive Cash Flow Amid Difficult Industry Conditions

LINDON, Utah, June 13, 2016 - Profire Energy, Inc. (NASDAQ: PFIE), a technology company which creates, installs and services burner and chemical management solutions in the oil and gas industry, today reported financial results for its fiscal year ended March 31, 2016. A conference call will be held on Tuesday, June 14, 2016 at 1:00 p.m. EDT to discuss the results.

Fiscal 2016 Highlights

- · Total revenues of \$27.1 million
- · Generated significant positive operating cash flow
- · Positive net income for the year
- · Remained debt-free
- · Increased customer base to more than 300 customers

Fiscal Year 2016 Financial Results

Total revenues for the year ended March 31, 2016, decreased 47% to \$27.1 million from \$51.2 million in the year ended March 31, 2015. Decreased production and capital investment activity in the oil and gas industry was the primary factor in decreased sales. Although facing a difficult market, the Company is determined to position itself to capture the greatest amount of revenue in both the short- and long-terms. Profire will continue to focus on developing new products, diversifying into new markets and industries, and enhancing marketing and sales efforts with key customers and prospects. As the Company does so, the expectation is that sales can stabilize in the short-term and Profire will be able to increase revenues and revenue stability over the long-term.

Gross profit decreased to \$13.6 million or 50% of total revenues, as compared to \$27.2 million or 53% of total revenues in the prior year.

Total operating expenses decreased to \$13.7 million or 51% of total revenues from \$18.7 million or 37% of total revenues compared to the prior year. Cost management has been a significant Company focus over the last year and will continue to be an emphasis for the foreseeable future. The Company has been successful in its expense-reduction measures and will continue to work towards maximizing efficiency and eliminating unnecessary cost wherever possible.

Net income was approximately \$35 thousand or \$0.00 per diluted share, compared to net income of \$5.7 million or \$0.11 per diluted share in the prior year.

Cash and cash equivalents totaled \$21.3 million, an increase of more than \$7.1 million compared to the year ended March 31, 2015. The Company continues to generate cash flow from operating activities and operates debt free.

Management Commentary

"Frankly, it's been a tough year for Profire, as with all other companies in our industry," said Brenton Hatch, President and CEO of Profire Energy. "Customers just haven't had the budgets to spend and each sale has been difficult to capture. However, when we look at the big picture, we feel that our performance relative to the industry and our peers, is evidence of Management's ability to steer the Company in the right direction, and position Profire well for the future. The fact that we were able to turn a profit and generate as much positive cash flow as we did, especially in this market, is quite impressive."

"We have gone to great lengths to reduce overall costs at Profire, and feel that we have been very effective in these efforts," said Ryan Oviatt, CFO of Profire Energy. "Our ability to generate positive net earnings and cash flow is evidence of the Company's commitment to scaling with the market. We anticipate that it's still going to be tough for a little while this year, but we are confident that the decisions we have made over the past year have positioned the Company to capture future opportunities and deliver long-term shareholder value."
