## Profire Energy Reports Financial Results for Fiscal Year 2018

Company Recognizes Most Profitable Year in Company History with Net Income Up Over 36% to \$6 Million or \$0.12 Per Diluted Share Revenues up 19% YOY to \$45.6 Million

**LINDON, Utah March 6, 2019-** Profire Energy, Inc. (NASDAQ: PFIE), a technology company (the "Company") which creates, installs and services burner and chemical management solutions in the oil and gas industry, today reported financial results for its fiscal year ended December 31, 2018. A conference call will be held on Thursday, March 7, 2019 at 1:00 p.m. EST to discuss the results.

# Fiscal 2018 Highlights

- Recognized Revenue of \$45.6 million, The Second-Best Year in Company History
- Net Income of \$6 Million or \$0.12 Per Diluted Share, a 36% Increase From the Previous Year, The Most Profitable Year in Company History
- Realized Gross Profit of \$22.9 Million
- Cash and Liquid Investments of \$22.6 Million and Remained Debt-Free
- Received an Effective Internal Control Opinion from External Auditors
- Received SIL Certification for the PF3100

## **Fiscal Year Financial Results**

Total revenues for the period equaled \$45.6 million or a 19% increase from the previous year. This is the second-best revenue year in Company history. This increase is largely attributed to our ability to leverage our expanding customer base.

Net income was \$6 million or \$0.12 per diluted share, compared to a net income of \$4.4 million or \$0.09 per share in the previous year making this the Company's most profitable year ever.

Total operating expenses were approximately \$14.9 million or an 11% increase over last year. This change is primarily due to increased labor costs, higher sales commissions stemming from the 19% improvement in revenue, and investments in R&D.

Compared with the last fiscal year, operating expenses for general and administrative increased 12%, R&D increased 14% and depreciation decreased roughly 5%.

Gross profit increased to \$22.9 million or 50.2% of total revenues, as compared to \$20.3 million or 52.9% of total revenues in the previous year. Gross profit margins fluctuated this year largely due to adjustments in inventory reserves as well as changes in product mix, direct labor costs, and warranty reserves.

Cash and liquid investments totaled \$22.6 million at the end of the year and the Company continues to operate debtfree. During the year the Company repurchased \$4.7 million of Profire stock.

## **Management Commentary**

"2018 was a banner year for Profire as we were able to achieve our most profitable year in Company history" said Brenton Hatch, President and CEO of Profire Energy. "We believe that in spite of present market volatility, the future of Profire is exciting. Enabling our five-year growth plan requires investing some of our cash reserves in 2019. We made hires throughout 2018 in order to augment our efforts to provide superior products and unparalleled customer experience and plan to continue making strategic hires and investments in 2019."

"Our efforts in this past year paid off and we are now able to conclude that our internal control environment is operating effectively," stated Ryan Oviatt, CFO of Profire. "Profire's focus on improving controls over financial reporting, cash management and internal investments are helping us to achieve our long-term goals and five-year growth plan. Throughout 2019 we plan to invest in current products, next-gen product development, international expansion, M&A activity, and other areas that we believe will add significant growth potential and opportunity."
