Profire Energy Reports Financial Results for First Quarter 2020

LINDON, Utah May 6, 2020 - Profire Energy, Inc. (NASDAQ: PFIE), a technology company (the "Company") which creates, installs and services burner management solutions in the oil and gas industry, today reported financial results for its first quarter ending March 31, 2020. A conference call will be held on Thursday, May 7, 2020 at 1:00 p.m. ET to discuss the results.

First Quarter Summary

- Recognized revenue of \$7.4 million
- Realized gross profit of \$3.2 million or 42.5% of total revenues
- Net loss of \$365,000 or (\$0.01) per share
- Cash and liquid investments of \$17.9 million and remained debt-free

"Our first quarter results reflect the early impact of the unprecedented combination of a global pandemic, the economic slowdown and reduced demand corresponding to the virtual shutdown of multiple countries, and a price war within the oil and gas industry," said Brenton Hatch, Chairman and CEO of Profire Energy. "Our deliberate approach to maintain a debt-free balance sheet is proving very prudent given current macroeconomic events, and believe we are well-positioned to weather the near and medium-term impacts of COVID-19 and a return to more favorable oil and gas prices."

First Quarter 2020 Financial Results

Total revenues for the period equaled \$7.4 million, a 31% decrease over the same period a year ago. This decrease was primarily driven by negative macro industry trends, including the impact on commercial and consumer demand related to COVID-19, as well as a 17% drop in the average oil price during the same period, due in part to a significant price war between Russia and OPEC in the final weeks of the quarter.

Gross profit was \$3.2 million, which was down 45% from the same quarter last year. Gross margin was 42.5% of revenues, compared to 53.2% of revenues in the prior-year quarter. The gross margin decrease was driven by the change in product mix and related reserves, and reduced fixed cost absorption.

Total operating expenses were approximately \$3.8 million, a 6% increase from the same quarter last year. This increase is consistent with the strategic investment plan implemented last year, which included the completion of two acquisitions last year, and ongoing research and development.

Compared with the same quarter last year, operating expenses for G&A increased 4%, R&D increased 17% and depreciation increased by 27%.

Net loss was \$365,264 or (\$0.01) per share, compared to net income of \$1.7 million or \$0.03 per diluted share in the same quarter last year.

Cash and investments totaled \$17.9 million at March 31, 2020 compared to \$18.6 million at the end of 2019, and the Company continues to operate debt-free. Capital expenditures for the quarter were \$525,000, primarily related to work to complete the new facility in Canada which opened in early March 2020. Working capital as of March 31, 2020 was \$22.7 million, compared to \$22.9 million at the end of 2019.

Management Commentary

"In light of the current economic environment, we are reviewing our cost structure to determine necessary changes to improve profitability," said Ryan Oviatt, CFO of Profire Energy. "We will also use the disruption across the industry to selectively evaluate potential business development opportunities that complement our strengths, similar to our acquisitions of Millstream and Midflow in the latter half of 2019."
