Profire Energy Reports Financial Results for Second Quarter 2020

LINDON, Utah August 5, 2020 - Profire Energy, Inc. (NASDAQ: PFIE), a technology company (the "Company") which creates, installs and services burner management solutions in the oil and gas industry, today reported financial results for its second quarter ending June 30, 2020. A conference call will be held on Thursday, August 6, 2020 at 1:00 p.m. ET to discuss the results.

Second Quarter Summary

- Recognized revenue of \$4.4 million
- Realized gross profit of \$2.1 million or 47.9% of total revenues
- Net loss of \$808,503 or (\$0.02) per share
- Cash and liquid investments of \$18.1 million and remained debt-free

"Our second quarter results reflect both a full quarter's impact of the COVID-19 global pandemic, which significantly reduced demand across the oil and gas industry, and the fallout of the price war between Russia and OPEC, which caused oil futures to turn negative for the first time in history," said Ryan Oviatt, Co-CEO and CFO of Profire Energy. "We responded quickly to these events by reducing expenses and adjusting the cost structure of our organization during the quarter. These actions are reflected in our results through the sequential improvement in gross margin and a nearly \$600,000 reduction in operating expenses from the first quarter, while maintaining our strong balance sheet."

Second Quarter 2020 Financial Results

Total revenues for the period equaled \$4.4 million, compared to \$7.4 million in the first quarter of 2020, and \$10.1 million in the same period a year ago. The second quarter's results reflect the full impact of COVID-19 on consumer demand compared to just a few weeks in the first quarter, as well as a 53% drop in the average oil price during the same period, due in part to a significant price war between Russia and OPEC in the first month of the quarter.

Gross profit was \$2.1 million, compared to \$3.2 million in the first quarter of 2020 and \$5.2 million in the year-ago quarter. Gross margin was 47.9% of revenues, compared to 42.5% of revenues in previous quarter and 51.2% of revenues in the first quarter of 2019. The sequential gross margin improvement was driven by actions taken during the quarter to adjust the cost structure of the company.

Total operating expenses were \$3.2 million, compared to \$3.8 million in prior quarter and \$4.2 million in the same period a year ago. The sequential and year-over-year decreases reflect ongoing cost control measures in response to COVID-19 and the ongoing supply and demand imbalance within the oil markets.

Compared with the same quarter last year, operating expenses for G&A decreased 23%, R&D decreased 55% and depreciation increased by 63%.

Net loss was \$808,503 or (\$0.02) per share, compared to a net loss of \$365,264, or (\$0.01) in the first quarter of 2020, and net income of \$1.0 million or \$0.02 per diluted share in the same quarter last year.

Cash and investments totaled \$18.1 million at June 30, 2020 compared to \$18.6 million at the end of 2019, and the Company continues to operate debt-free. Capital expenditures for the quarter were \$469,000. Working capital as of June 30, 2020 was \$23.4 million, compared to \$22.9 million at the end of 2019.

"Despite turbulent times in our industry, we continue to add customers who recognize the value our solutions bring in improving safety and efficiency" said Cameron Tidball, Co-CEO of Profire Energy. "We will continue to investigate and analyze opportunities to diversify our offerings, including the evaluation of select strategic acquisition targets that provide complementary solutions or could expand our potential customer base, that may arise through the disruption of the markets."
